

Information Security Policy

The security of information and information assets is regarded as fundamental for the successful business operation of Marquis Technologies Private Limited.

Fully committed towards ensuring the Confidentiality, Integrity and Availability of information, Marquis Technologies Private Limited has adopted an Information Security Management System (ISMS) comprising of the information security policies, procedures, and a comprehensive risk management framework to effectively protect data/information of Marquis Technologies Private Limited and its stakeholders including customers from security threats, whether internal or external, deliberate or accidental.

The management of Marquis Technologies Private Limited is committed to ensure that:

- Appropriate resources are allocated to implement, operate, and review an effective Information Security Management System
- Awareness of the employees towards information security risks is enhanced through regular training and appropriate initiatives
- Applicable legal, regulatory and contractual requirements related to information security are met and regularly reviewed
- The organization continually improves the suitability, adequacy and effectiveness of the information security management system and practices the same through various strategic and operational initiatives.
- The confidentiality of information is protected and unwarranted disclosure of valuable or sensitive information is prevented.
- The integrity of information is preserved to ensure its accuracy and completeness.
- The availability of information is maintained to meet business needs and client's requirements.
- Incident management process is established and implemented to ensure that all breaches of information security, actual or suspected are reported and investigated.
- Risks are mitigated to an acceptable level through a risk management framework.
- All stakeholders are responsible for implementation of respective information security policies and procedures within their area of operation and oversee adherence by their team members.

Marquis Technologies shall ensure that the Information Security Policy and related documented information is reviewed at least on an annual basis to ensure suitability, adequacy, and effectiveness of the ISMS framework.
