## PROFILE

As a Test Engineer with 2.7 years of experience in mobile applications across Android and IOS platforms, Proficient in developing and executing comprehensive test plans, identifying defects, and ensuring high-quality user experiences. Skilled in utilizing industry-standard tools and methodologies to deliver reliable and efficient testing solutions

## PROFESSIONAL EXPERIENCE

### Test Engineer

#### Marquis Technology pvt Limited

- A dynamic professional with 2.7 years of extensive experience in the Telecom sector.
- I am proficient in testing pre-launched devices, manual testing, Sanity, Functionality, performance & regression Testing.
- Experienced in 5G, VoNR (SA/NSA), VoWiFi, VoLTE, LTE, WCDMA, and GSM technologies for network optimization.
- Exposure to Quality testing of Mobile signals. Knowledge of Manual testing, LTE protocol (Modem testing), Log Analysis, Cell Planning, Performing regression testing.
- Hands-on experience in UE testing with Qualcomm and MediaTek devices using QXDM, QPST, PCAT, QFIL, ELT, MATT LAB, APPEX and related tools.
- Flashing Devices and experience with Qualcomm and MediaTek's UE devices testing and reporting bugs.
- A collaborative team player with excellent communication skills, committed to continuous learning and improvement in testing processes.

### Current Organization

Company : Marquis Technology Private Ltd

Designation : Test Engineer

Duration : Sept 2022 to till date

## PROJECTS

- **UE/Handset testing on pre-launch devices for multiple Clients.**

**Modem:** Qualcomm/MediaTek/Unisoc.

Location: India (Bangalore, Chennai and Delhi) and Remote support Overseas locations.

### -Key Responsibilities:

- I am working as a Field Test engineer for multiples clients at Marquis Technologies Pvt. Ltd
- I was handling the below roles and responsibility in this project:
  - Reviewing and updating Test Cases as per the requirement for different releases.
  - Sharing the work and Execution of Test Cases among Team members.
  - Communicating the test results to the Client.
  - Bugs reporting on bug tracking tool & updating the status of the bugs.
- Manual & automation testing on different handsets (Like Google, OPPO, Realme, Nothing, OnePlus) of LTE/VoLTE/GSM networks for the features supported by the operator & handsets on different network Follow up & track on issue
- Utilized MATLAB for signal performance evaluation and network optimization.
- Leveraged Apex for automated testing and report generation.

## **SKILLS**

- Testing Tools: QXDM, PCAT, QFIL, MATT Tool, ELT Tool, MATLAB, APPEX
- Technologies : 5G, VoNR (SA/NSA), VoWiFi, LTE, VoLTE, 5G, WCDMA, GSM., GNSS

## **EDUCATION**

B.E. in Electrical and Electronics Engineering from HMS Institute of Technology, Tumkur, Karnataka |  
2021 | CGPA: 7.1

## **Declaration**

I hereby declare that I consider myself familiar with UE & network testing Aspects and the information furnished above is true to the best of my knowledge. I bear the responsibility for the correctness of the above-mentioned.

Place: Bangalore
